Being a manufacturer, we deal with various clothing forms, such as Kids Cloths of School Kids, Tracksuits, School Digital Printing T-Shirts, and Primary School. Hoodies, Infants Knitwears, and many more. Saims Fashions operates flawlessly and manufactures the finest range for delivering a value for money experience to the customers.

What We Do

We work in an organized way and our approach is traditional. In the first stage, we understand our clients' requirement in depth, devise a plan of action and execute it. We manage time effectively with the 80/20 rule, i.e 80% planning, and 20% execution. At Saims Fashions we ensure that product is manufactured according to the standards. The samples of the garment are shipped to the buyer for review and approval. On the approval from the buyer, the process for mass production is initiated.

Sourcing

Well established vendor connection along with great teamwork makes The Saims Fashions specialist in sourcing. This also allows the company to explore the unexplored possibilities of sourcing the best garments. Saims Fashions keep its zeal intact in line with those who pioneered insourcing

Product Sampling

At Saims Fashions we have highly efficient sampling facility. We have an in-house sampling department and sampling unit that is supervised by experts. We assist buyers with samples for promotion and production quality control. We develop designs as per clients' specification. The buyer confirms the fit and style with the help of samples. We make samples for an entire size set. Once the client approves the samples it becomes a benchmark for the remaining work.

Vendor Selection

We connect with vendors and select a vendor according to the product specification and order placement. We take time to choose the right vendor. We opt for people who has the right attitude and who strive for the best. At present we are working with 32 factories in Faisalabad. We help the buyers to carefully examine the practices of the manufacturer, carry out a background check and then place the order.

Product Development In Bulk

On the receipt of approval on samples, the process for product development in bulk is initiated. We develop the product according to buyer's requirement and specifications. Along with the product, we attach a tag which has all the important data about the product as well the wash and care instruction. During the mass production, we follow personalized and periodic follow up to meet the standards and quality. Our team consistently update the client about the progress in production.

Price Negotiation

Price negotiation is one of our key strength. We get competitively priced products for our clients without any compromise on quality. The price negotiation is kept transparent and under the surveillance of the buyer. We take extra care to maintain transparency and competitiveness when it comes to price negotiation.

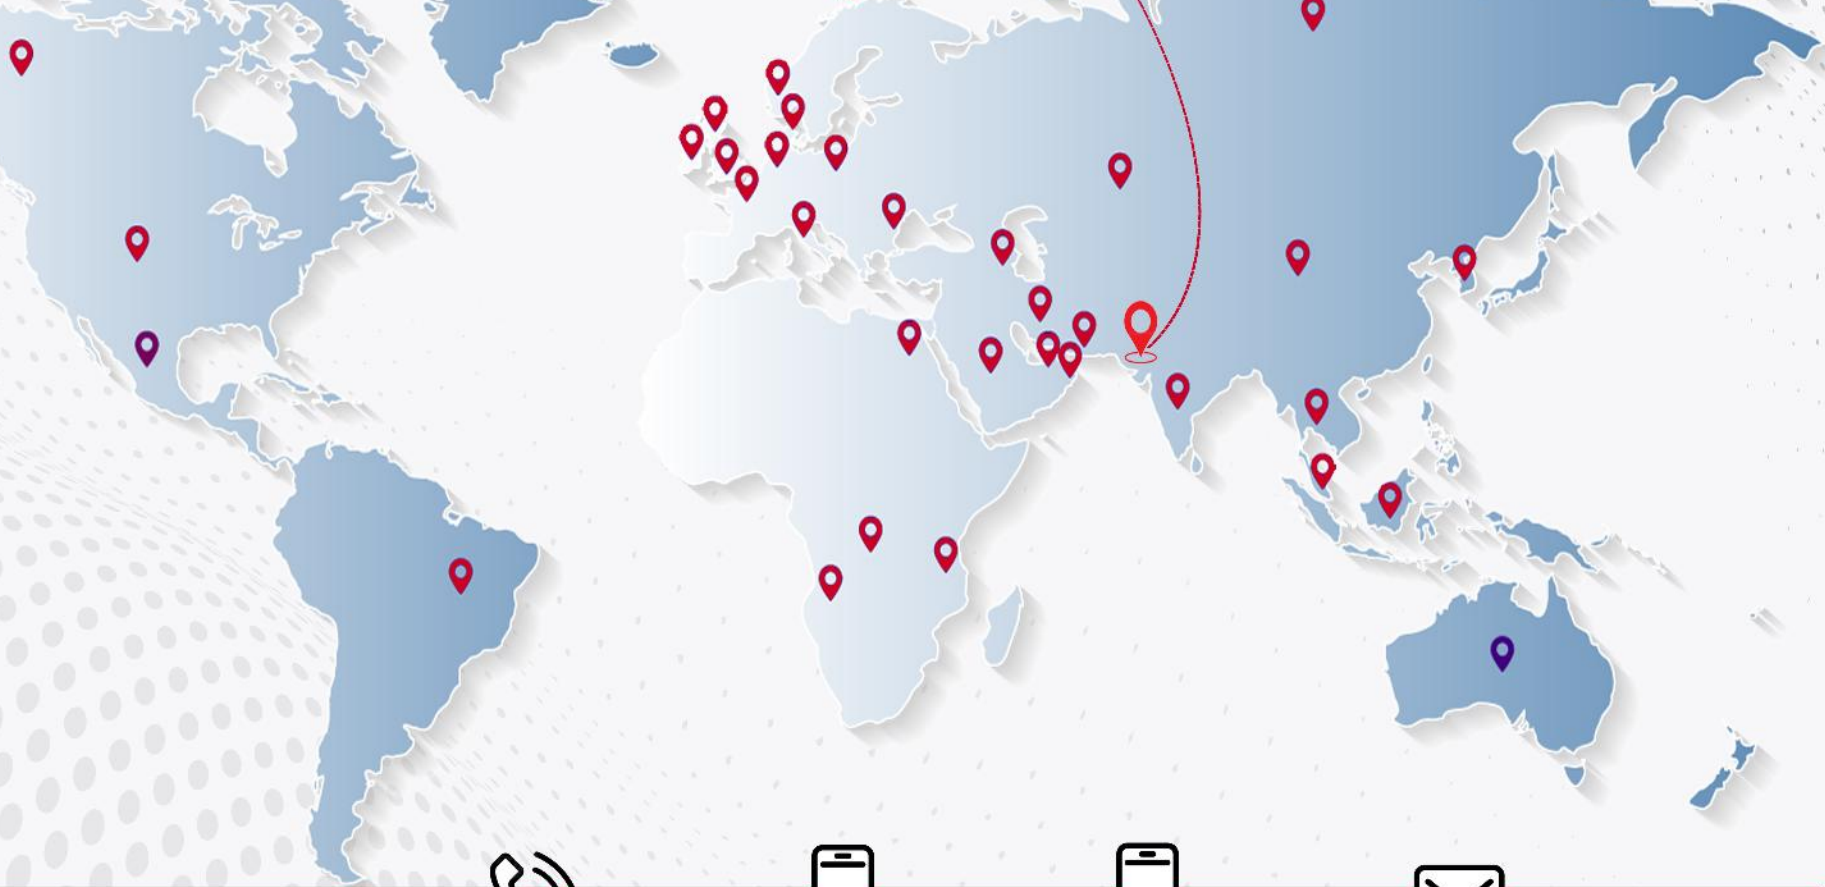

Logistics & Shipment Follow Up

Our logistics department handles all the documents regarding shipping of the product. We ensure that we have the correct shipping documents and get prior approval from the client before and post shipment. This ensures trouble free delivery to the destination. We also record our follow ups which saves time. The Saims Fashions sends out shipping advice with all relevant details of shipment to ensure smooth delivery.
